PROFESSIONAL EXPERIENCE

Software Developer Intern **Sep 2026 – Present**

DigitioHub Technologies Pvt. Ltd. — Ambarnath, Thane

- Working with the software development team on assigned development activities, currently building frontend features using Next.js, TypeScript, and shadcn/ui.
- Collaborating on real-world software development tasks, contributing to projects, testing, debugging, and documentation in a professional team environment.

KEY PROJECTS

WhatsApp Auto-Reply Chatbot

Java, Spring Boot, REST API, Webhooks

- Engineered a Spring Boot backend service that integrates with the WhatsApp webhook API to automatically process and respond to incoming messages in real time.
- Designed and implemented REST endpoints to receive, parse, and route WhatsApp messages, applying Core Java and OOP principles to structure a maintainable message-handling layer.
- Handled request/response logic for automated FAQ answering, demonstrating practical experience with API-based backend integrations.

Quiz Android Application

Java, Android SDK, XML, Firebase Real-time Database

- Built a fully functional Android quiz application using Java and XML layouts, with Firebase Real-time Database for live data sync of quiz content and scores.
- Designed interactive, user-friendly UI components and applied Core Java/OOP principles to structure app logic and manage state cleanly.
- Implemented real-time read/write operations against Firebase, reinforcing skills in NoSQL data modeling and client-server data sync.

Java GUI Calculator

Java, Swing

- Developed a desktop calculator application in Java using Swing, supporting standard arithmetic operations through an interactive, event-driven GUI.
